- Support MKV, x264, 1920h800, 11,7 Mbps), standard AVIshkah (XviD, 720 × 4006 2076 kb / s) and audio files m4a (ALAC), FLAC, mp3..
- For fans of 'twist arms' have control settings and the equalizer
- Support for multiple monitors, Activating Letterbox, index reorganization (try playing 'broken' files), the elimination of Interlace, hot keys, play streaming audio and video.. In the settings you can specify the size, color and outline of subtitles, as well as how to display, overlay, trimming, and 'smart definition' Multi-touch player management.. I can not vouch for all occasions, but I was able to correct ('without a drum') play the built-in and external subtitles.. Additional Information I turned successfully test the functionality of the player to a heavy matryoshka (MKV, x264, 1920h800, 11,7 Mbps), standard AVIshkah (XviD, 720 × 4006 2076 kb / s) and audio files m4a (ALAC), FLAC, mp3.
